

Conemaugh Memorial Hospital

Date: 2022

Location: Johnstown, PA

Advantage: Durability

Technical Specifications

Fiber Reinforcement: FORTA-FERRO[®] 2-1/4"

Application: Slab-on-Metal Deck

Doasge: 4.0 lb/cu yd

Project Size: 75,000 sq. ft.

Delivery Method: Pumped

This newly constructed hospital addition used **FORTA-FERRO** macro synthetic fibers in place of wire mesh to **control cracking and add durability**. Using the industry's easiest mixing and finishing reinforcement fiber allowed this lightweight concrete to be pumped with great success.
