

NF 4 - Beverage Co.

Date: 2022

Location: Pittsburgh, PA

Advantage: Superior Finish

Technical Specifications

Fiber Reinforcement: FORTA-FERRO[®] 2¼"

Application: Slab-on-Ground

Doasge: 5.0 lb/cu yd

Total Project Size: 3,264 yd

Replaced: Rebar

Delivery Method: Tailgate

Finishing Method: Steel-Troweled

Engineers, seeing the value of **FORTA-FERRO** macro synthetic fibers, presented completed projects to owners to educated them on the finishing abilities of reinforcement fibers. Owners agreed and **replaced specified steel** in this new commercial construction. These fibers will **improve the wear surface** as well as **reduce curling**.
